PRESENTATIONS

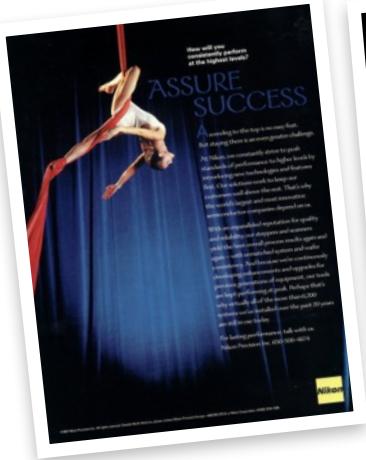

How to Create a Larger Vision of Yourself

Proof that ordinary people can achieve the extraordinary, Christine transcended from worst student in her class to a Legend in her sport. She shares powerful stories that illustrate 3 strategies to “un-defining” yourself. This session will equip your audience with the tools to:

- expand their sense of identity and their limitations.
- experience more pleasure and success.
- increase their sense of what is possible.
- improve the quality of their relationships, health, finances and every area of their lives.
- fast track their personal and professional goals and dreams.
- Embrace change and achieve extraordinary results.

Keynotes run 35-45 minute.

BIO

Christine went from a Female Olympic Athlete of the Year, Athlete of the Decade, Hall of Famer, and the only 7-time consecutive National Champion in acro-gymnastics to one of the most sought after aerialists in the world.

She performs regularly before more than 250,000 people a year, traveling to over 40 countries, performing everywhere from the Sydney Opera House to Madison Square Garden to the Kennedy Center.

She was a trainer and performer on NBC's Celebrity Circus. She opened for Paul McCartney before 100,000 people at a time, performed at the 2002 Olympics, the Miss Universe pageant, at the AMAs and the Grammy's and now exhibits worldwide in Cirque de la Symphony.

As a trainer, she choreographed the aerials for Britney Spears World Tour and the Stars on Ice US tour.

She co-owns with her husband, Jonathon Conant, Airborne Arts, an aerial retreat center in Costa Rica overlooking a 600-foot waterfall.

Armed with the same contagious passion, fervent energy and dedication that she puts into her athletic and performance career, Van Loo succeeds as a dynamic high content speaker who is inspirational in style to make a lasting impact on people by giving them tools to rewrite their life scripts and fulfill their own greater purpose.
